

Frequently Asked Questions About District or School Membership

How does my staff register for membership?

NASET will provide clear and simple directions for distribution by you to your designated staff. There is a unique code that is supplied in the instructions that identify any individual as a member of your staff. Each member will create their own unique user name and password. The process is simple and will require that each individual go to the website and enter their individual membership information plus your unique School Registration Code. You will not need to collect any information from your staff for registration!

When does membership begin and end?

Upon receipt of payment or purchase order, you can decide when you want the membership to begin and we will activate a start date one week earlier to allow time for dissemination of the registration instructions and staff registration. One year from the date of the requested start date the membership will automatically expire unless you choose to renew.

Do member's benefits or website access differ for District or School Members?

No, membership benefits and access to all that the NASET website offers are the same for District or School Members as all other membership categories.

Can my staff take the professional development courses on NASET?

Yes. Each registered member can take the courses and complete the test for each course. Results of completed tests are maintained on the website and the member can print out their certificate of completion for each course test successfully completed (80% correct answer for successful test completion).

How can I determine what courses have been successfully completed by my staff?

Upon successful completion of each course test, the member can print out a certificate of completion for the course. The certificate contains the member's name and the course title. This documentation can be presented as proof of completion. In addition, this information remains on the website for the member to return to reprint as long as their membership is active. In addition you can download course completion information for all staff.

How do I start a District or School Membership?

First request a District or School Membership Quote. Include the quote response with your payment or official district / school purchase order. Upon receipt of the aforementioned, NASET will contact the primary contact you designate to start your membership.
